Strategy

Strategy forms the backbone of AI readiness, emphasizing a well-defined approach, clear ownership, and sustainable financial planning. It's not just about having a strategy but ensuring its clarity, measurable outcomes, and long-term viability.

Do you have a strategy to deploy AI powered solutions in your organization?

- ☐ Yes – we have a well-defined AI strategy
- ☐ No – we are currently in the process of developing an AI strategy
- ☐ No – we have not yet started to develop an AI strategy
- ☐ Unsure

Is it clear who / what team is leading the AI strategy for your company or is it being managed in a more organic and decentralized manner?

- ☐ There is clear leadership / ownership of our organization's AI strategy
- ☐ More organic and decentralized

Do you have a process in place to measure the impact of the deployment of AI / AI-powered solutions?

- ☐ Yes, we have a process and clearly defined metrics
- ☐ Yes, we have a process but are still working on actual metrics
- ☐ No, we don't have a process or metrics, but we are likely to have this in the next 12 months
- ☐ No, we don't have a process of metrics and we are unlikely to have this in the next 12 months
- ☐ Unsure

Has your company established a financial strategy to ensure sustainable funding for AI deployment initiatives?

- ☐ Yes – A short and long-term financial strategy is in place
- ☐ Yes – Only a short-term financial strategy is in place
- ☐ No – But we are currently underway with developing a financial strategy
- ☐ No – We have no plans presently to develop a financial strategy
- ☐ Unsure

How is your company prioritizing budget allocation between AI deployment and other technological initiatives?

- ☐ AI deployment is the highest priority for budget allocation, and we have been given an additional budget for it
- ☐ AI deployment is given equal priority alongside other technological

initiatives. We have some additional funding available

- ☐ AI deployment is important, but we will have to cut spending across other technical initiatives to fund it
- ☐ AI deployment is important, but depends on other technical initiatives to be in place first
- ☐ Unsure
